Fred set up a student volunteer project at his school. Last Saturday, he went to visit some old people who had no children with his three friends. The old people lived in a small village far away from their school, so they went there by train. They got there at 10:20 a. m. and stayed there for a whole day. They brought some things for them, and did some housework for them. Fred took a lot of photos with the old people. The next morning they said goodbye to them at 7:45. They thought they spent the most interesting weekend. "Volunteering is great!" said Fred. His friends also said they would not give up volunteering.

Helen Smith has two daughters. Let's have a look at what chores they do at home.

Alice started doing chores when she was about eight years old. At that time, she did the dishes with me together and she has to sweep the floor. She is ten years old now. She is now doing the dishes herself and has to do the laundry, too.

Amy is four and she started doing chores this July. She cleans the table after dinner and she also learns to fold her own clothes. She likes to help me sweep. I asked her to help mop, but she fell down too many times.

Last week Alice got her pocket money, but lost it two days later. She was so unhappy that she didn't do her chores the next two days. But she will get the money back if she can keep doing her chores every day till the end of this month.

About 65% students agree they should take after-school classes. Because it can help them get good grades and go to a good university. Then when they grow up, they will be a successful person. The

other students disagree. They think that if they take such classes, their free time will be less and less. They can't even relax themselves on weekends so that they will under too much pressure.

In my opinion, we should take some of the after-classes in order to improve ourselves. However, we also need our own time to do what we want to do. It is important for our health and development.

- VII. I was so lucky to a volunteer in Ningbo Cultural Expo held in April. My jobs are as follows:
 Firstly, I helped the staff clean the floor and put up pavilions. After we made the place clean and tidy, we started to meet people. We helped visitors to find the places as soon as possible. I even explained to some foreigners in English. At last, when the expo finished, we cleaned the place and took out the rubbish.

As a volunteer, I was tired but happy. I enjoyed different cultures like tea, qipao and different forms of paintings. I tasted much delicious food and made many friends. It was worthwhile.

They usually live together in the forest. They are big and strong. They have big ears and long noses. Elephants like eating leaves, bamboos and fruits. They are very friendly and kind. And we cut down so many trees that lots of elephants are losing their home. So we must take action to protect them now. We shouldn't

The club meets once a week, on Wednesday evening. There are sometimes matches on Sunday morning, but those are just for our team players. Our meetings begin at a quarter to eight, and are about two and a quarter hours long, so we finish at ten. People like to get home in time for the 10:15 sports program on television. We meet in the hall in Park Lane. The hall doesn't have very good heating, so you need to bring a sweater to put on afterwards. It's also quite expensive to rent, so our players pay \$12 each week.

Nice hearing from you. Let me tell you what we often do on World Water Day. On March 22nd all the teachers and students of the school take part in different activities.

Lots of students put on short plays. Some plays are funny, and they show us wasting water is bad for humans. Many students take part in the speech competition. They tell us what we should do to save water. Some teachers and students make posters and put them up in the school and neighborhood. In this way, more people know the World Water Day and join us.

All these activities are helpful. More and more people know the importance of water and begin to save it. Maybe you do the same.

We all need a healthy environment. Though we are young, we can still do something to help. Here is an idea for you. We should do reusing all the time. Reuse means "use again". Use things for as long as possible. When we buy things, make sure that they last for a long time. We should take care of them so that they will last, and we should repair them instead of simply throwing them away and buying new ones. Don't use a paper cup or a paper bag. It's better to use a china cup and a lunch box because you can use them again. Also, you may give away certain things to other people who need them. Besides, a yard sale is a good choice, too.

VII. Hello, everyone. My name is Li Hua. Today I'd like to share one of my books with you. The name of the book is *Journey to the West*. It was written by Wu Cheng'en and it is one of the greatest books in China. I've had it for three years. My father gave it to me as a gift on my 10th birthday.

In this book, I like Monkey King best. He can do a lot of things. For example, he can fight bad people. He can make his stick small or big. He can always think of good ways to solve the problems. What's more, he can also make 72 changes. I think he's a real hero, because he is always there when the difficulties come. He's really a brave man!

IX. As middle school students, it's our duty to behave well and try to make the school a better one. Here are some of my suggestions.

Firstly, it is important for us to listen carefully in class and study hard to get good grades. We should do homework by ourselves. Never copy others' homework. Secondly, we should get on well with our schoolmates. Remember to be friendly to others. We'd better be ready to help others when they need our help. Thirdly, we should keep our school clean and tidy. Dropping litter everywhere is not allowed. What's more, don't waste school food while eating in the dining hall.

In a word, if everyone can do our part, our school will be better.
